

Parents:

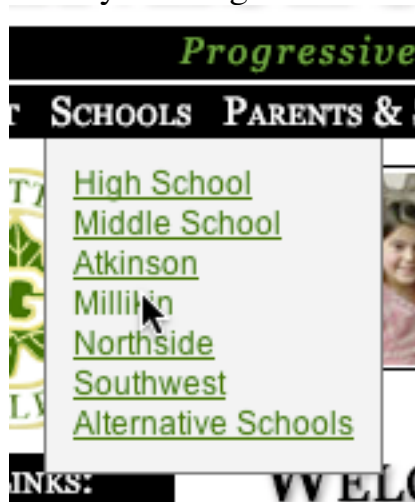

Geneseo School District is using a new math series in the elementary grades this year from Harcourt, Inc. In addition to the new textbook, there are accompanying web resources that the district has subscribed to for a one year trial that correlate with the book.

Below are some instructions to help you access the Harcourt web site from home.

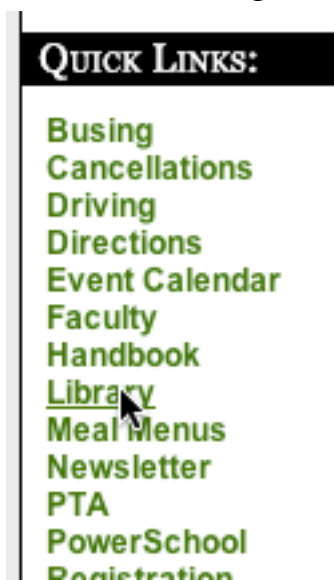

- Launch a web browser and navigate to the school district web site:

www.geneseoschools.org

- On the upper left side of the home page, click on the Schools link and drop down to an elementary building.

- On the left side of the next page, click on the Quick Links and drop down to Library.

Is my home computer ready?

The Harcourt web site uses a variety of common web browser plug-ins to enhance the features delivered via the web. You may check your machine by logging on to this web site first.

<http://www.eharcourtschool.com/index.jsp>

On the left side of the page click on the WebCheck icon and follow the prompts. It only takes a few moments and it checks for Java, Acrobat Reader, Macromedia Flash and Shockwave, etc.

- Near the middle of the upper part of the Library page, click on Websites.

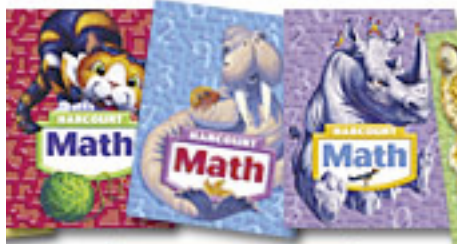

•On the Websites page, find Harcourt School in the Math section.

•On the Harcourt site, click Math

•Next, choose your language, English or Spanish

•Math password is Newman

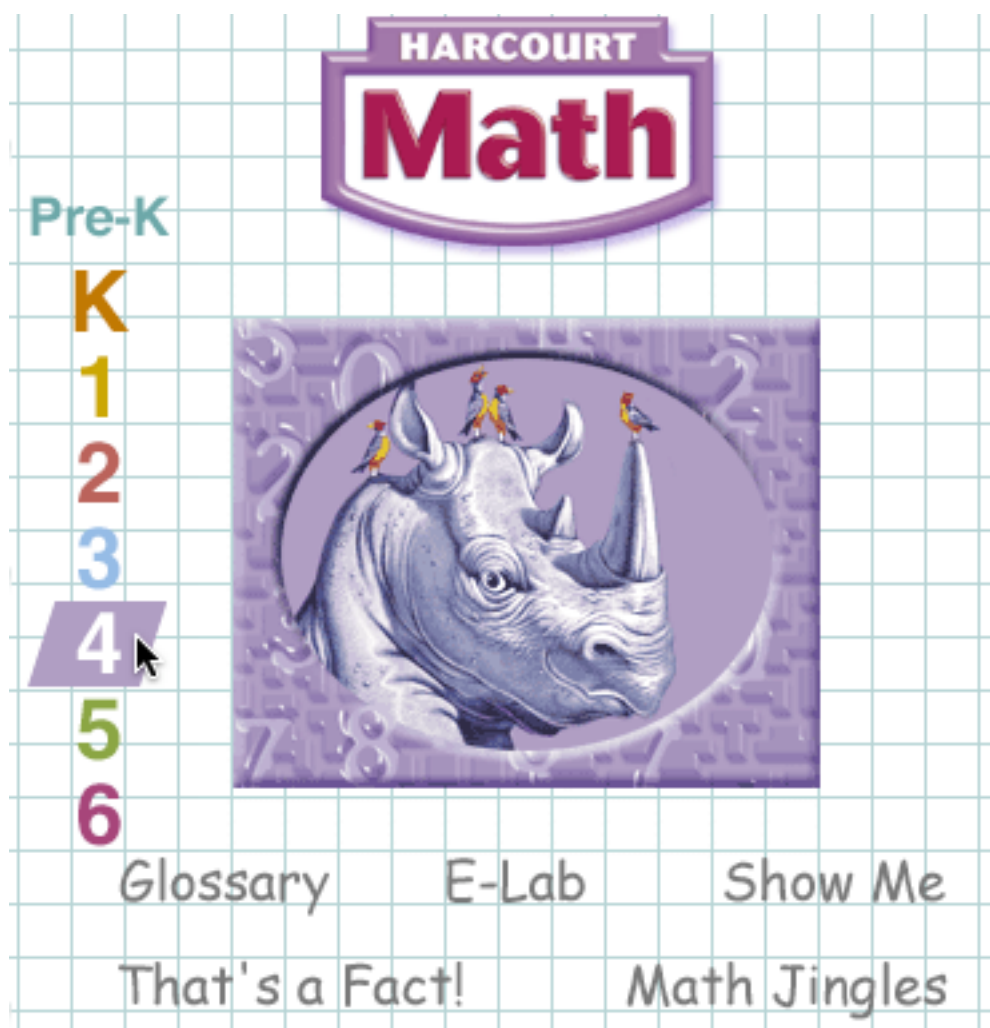

•Select a grade level and it will take you into sections correlated by chapter with the book.

•Select E-Lab and you will find help sections by topic for grades 3-5

•Select Show Me and it has help sections with audio for many topics

•Select That's a Fact! and there are various practice activities for the four basic operations

•Math Jingles adds music to Math topics

Did you know the school district subscribes to World Book Encyclopedia Online? It is a great resource.

On the Websites page, find the World Book link under Research

To use it at home you just need this info:

User name: gmswb

Password: leafs
